20 Years. What Have We Learned?

Dear Colleagues.

It is my pleasure and honor to announce that the next annual meeting of the European Association for Osseointegration will take place in Copenhagen October 10th to 13th, 2012.

Being the 20th Anniversary Meeting of the EAO, this annual meeting is special and it provides us with an opportunity to look both at the past as well as into the future. This is why the theme of the meeting is "20 Years. What Have We Learned?"

The program contains a variety of pre-congress courses and sessions all focusing on topics highly relevant for clinicians interested in the field of implant dentistry. Short oral presentations, research competitions, and posters will also update us on the most recent research achievements relevant for implant therapy. Interactive sessions, including discussion of cases published on the EAO website before the congress, will be included as a new initiative.

Large trade exhibitions as well as industry satellite symposia have been included also this year.

We will celebrate the 20-year EAO anniversary with an extended anniversary reception on Wednesday for all attendees. Finally, there will be an anniversary dinner on Thursday for the EAO members.

You may take advantage from sightseeing. Copenhagen has many attractions to suit any taste and interest within walking distance from the downtown hotels, including the 100-year old amusement park Tivoli, the Little Mermaid, Amalienborg Royal Palace, the free town of Christiania, guided canal tour on the harbor, Nyhavn, and the shopping street, Strøget.

Copenhagen has even more to offer, including museums and theatres. The most recommendable are the Royal Danish Ballet, the Royal Danish Opera, the Ny Carlsberg Glyptotek, and the National Gallery.

The Scientific Committee is looking forward to seeing you in Copenhagen for the 20th Anniversary Meeting of the EAO.
